

005D-0001 MATERIAL LIST ESTIMATE

Based on standard / non-customized home plan

ATTENTION CUSTOMER: IT IS IMPORTANT THAT YOU READ THIS INFORMATION BEFORE BEGINNING THE BUILDING PROCESS. THIS MATERIAL LIST IS INTENDED TO BE USED ONLY IN CONJUNCTION WITH THE CORRESPONDING BLUEPRINTS AND SPECIFICATIONS AND IS NOT INTENDED TO BE USED SOLELY FOR ORDERING PURPOSES.

This material list estimate is organized as follows:

Package 1 - Floor System

Package 2 - Wall Framing

Package 3 - Roof System

Package 4 - Exterior Doors & Windows

Package 5 - Exterior Finish & Trim

Package 6 - Insulation

Package 7 - Bath Cabinets & Accessories

Package 8 - Bath Fixtures

Package 9 - Drywall

Package 10 - Interior Doors/Hardware/Trim

Package 11 - Kitchen Cabinets & Accessories

Package 12 - Electrical

Package 13 - Fireplaces

Package 14 - Guttering

Package 15 - Flooring & Interior Wall Finish

Package 16 - Detached Garage (where applicable)

Extreme care has gone into assuring that your Design America material list is accurate. However, due to variations in local building practices and widely differing code requirements, the exact material quantities listed cannot be guaranteed by the designer or Design America, Inc. The intended use of this list is to provide you with a guide toward achieving your goal in the home planning process. You should amend this list as required by the building conditions of your construction site and local building regulations.

In an attempt to specify products that are currently available in most markets, some substitutions have been made to the material list which may vary from those shown on the actual working drawings. **For example:**

Product availability may require window sizes listed on the material list to vary from those actually specified on the plans or elevations. In such instances the nearest available standard size was substituted. Verify all window sizes prior to ordering units.

It is essential that you review this material list and the construction drawings with your builder and material supplier in order to verify product line, color, measurements, and descriptions of the materials listed. Prior to construction, all rough stud openings for doors and windows should be verified based on the units selected and the manufacturer's recommended installation instructions.

This material list does not include rough plumbing, heating and air-conditioning systems, foundation materials, and appliances.

If mirror reverse plans or readable reverse plans were ordered, all door swings will be the opposite of what is stated on material list. Adjust door swings accordingly.
